Promote The Health of All The People of the World: The Fortieth Newsletter (2018)
celina · Friday, November 30th, 2018
...the British colonialists siphoned off $45 trillion from India. That was the down payment for the British industrial revolution. It was the money that was then... Amit returned to the Alma Ata in Goa (India). He was a leader in India's people's science movement and the People's Health Charter (NIEO), passed by the UN General Assembly in 1974. The hope was to produce a world order that was not inequitable and that allowed the new post-colonial nations to avoid the same exploitation and oppression that the colonized societies faced...Espinoza sharply, 'There is no way forward other than changing the development model which has resulted in the current crisis'. By 'development model' Espinoza means the trade and development agenda that allows...Espinoza said, 'The 100 richest people own as much as the poorest 50% of the world's population.' He added, 'The 2.8% of the global population that makes $150,000 or more are responsible for emissions equivalent to 90% of the world's carbon emissions.' However, Espinoza pointed out that the current economic model...Espinoza, the deputy health minister of El Salvador, who said, 'We are facing a global public health emergency that requires a global public health solution.' He added, 'We need to...He put it – is making the world sicker, not healthier...'promoting the experience of the worker...World AIDS Day is on 1 December. This is the 30th...cost of a month’s dose for one patient of Truvada, a drug essential for HIV treatment. But the company...World AIDS Day is on 1 December. This is the 30th year of this commemorative day started by the United Nations as a way to focus attention on the crisis of HIV-AIDS. Concern over the prevalence of HIV-AIDS is no longer at emergency levels – even though the numbers of people with HIV has increased over the years. It appears more and more because the lack of the newly infected is not as efficient as the infected are. The global health – namely, in the African continent. Espinoza’s statement about ‘workability development model’ echoes the...Espinoza’s statement about ‘workability development model’ echoes the fact that the...Quilombo Campo Grande. At this cooperative, 450 families produce organic food, including coffee. The beneficiary of this...over women (see above). In Ecuador, it will be the protests by students and teachers that might reverse the government’s decision to cut education funding. In France, it will be the protests of the yellow vests (gilets jaunes) sharply, 'There is no way forward other than changing the development model which has resulted in the current crisis'. By ‘development model’ Espinoza means the trade and development agenda that allows the...What else can be expected unless, in memory of our friend and comrade Amit Sengupta and so many others, we fight to build a better world. And then, Engels asks, 'How is it possible, under such conditions, for the lower class to be healthy and long lived? What are the sources of...enjoyment of life. supplied bad, tattered, or rotten clothing, adulterated and indigestible food. They are exposed to the...single rooms, so that the air which they breathe at night is enough in itself to stifle them. They are given damp...worse out of the least space. As though the vitiated atmosphere of the streets were not enough, they are penned in dozens into...used to hire the workers, who lived in wretched conditions as British capitalists built up their astronomical wealth. In his book, Engels writes of the lives of the workers, the lives of the workers who produced the wealth of the United Kingdom. Recently, the economist Utsa Patnaik noted that the...women with HIV has increased over the years. It appears not to be a concern because the bulk of the newly infected are in the Global South – mainly on the African continent. Espinoza's statement about the 'development model' explains how the...the Global South – mainly on the African continent. Espinoza's statement about the 'development model' explains how the world is...Epidemiology, a sub-discipline of biology that studies how diseases spread and affect people, is at the heart of understanding and combating HIV. Worldwide, there were an estimated 38 million people living with HIV in 2018, but only 18 million were aware of their status, and of those,...in the space of a decade. They are now almost completely self-sufficient in the cultivation and production of all the vegetables they need. They are...and fear; they are hunted like game, and not permitted to attain peace of mind and quiet enjoyment of life.
