Yet another policy of the World Bank is to build large-scale infrastructure linking the poor to markets — better roads, ... the poor to essential services such as education and health, rather than to a marketplace in which to sell their labour?

Along these lines, Peruvian economist Hernando de Soto argues that the solution to endemic poverty is to let the poor have land titles to their homes in the slums. Yet, as the former UN Special Rapporteur on the Right to Food Olivier De Schutter

This obscenity increases when the current world order's approach to poverty is considered. The World Bank sets the terms ... solutions: promote private property, use government money to build large infrastructure, and push for high growth rates.

Elise Driggs,

Democratic control of wealth is set aside. Miniscule donations from the billionaires are celebrated. Inequality is untouched.

In 2013, the UN produced a
