Dear Friends,

Using Democratic Institutions to Smash Democratic Aspirations (the Brazil Model): The Twenty-Fifth Newsletter (2019).

Clarity now emerges around the political persecution of Lula. But what is still blurry for many is the actual case against him. This newsletter is dedicated to providing a primer on Lula and the case against him.

Yutaka Takanashi,

Who convicted Lula?

Judge Sérgio Moro convicted Lula. He became a celebrity and is now the Minister of Justice in the government of Jair Bolsonaro. The corporate media was on the side of the prosecution, and leaks from the court created an image of Lula as the enemy of democracy. The corporate media were biased in their coverage of the Lula case.

Is there evidence against Lula?

No, there is no evidence against Lula. The prosecution was based on spurious claims of corruption. The judge and the prosecutor were colluding to remove Lula from the presidential race. The judge and the prosecutor were colluding to remove Lula from the presidential race.

Lola Alvarez Bravo,

Who convicted Lula?

Judge Sérgio Moro convicted Lula.

The persecution of Lula is a story that is not merely about Lula, nor solely about Brazil. This is a test case for the future of political democracy in the world. The persecution of Lula is a test case for the future of political democracy in the world.

Odd how the US Department of Justice officials visited Judge Moro during the investigation, and how US Assistant Attorney General Kenneth Blanco said that the US justice officials had 'informal communications' about the removal of Lula from the presidential race.
